

DONATE NOW! milwaukeeemag.com/giveback

WHAT WE DO:

For 38 years, the mission of The Gathering has been to alleviate hunger in Milwaukee, to address root causes and problems associated with hunger and poverty, and to provide consistent quality services to our guests with respect and dignity.

We provide meals for those who would go without six days a week, through four neighborhood-based locations approximately 80,000 meals are served annually.

Our target population for all programming is Milwaukee's hungry and homeless. We have no intake process - all are welcome to eat with us at no cost and without question. Demographics of those served reflect in large part the neighborhoods in which we serve.

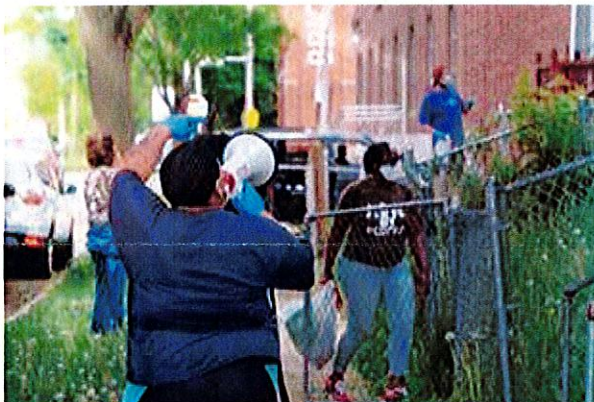

WHERE YOUR MONEY GOES:

Your donation helps fund the Breakfast Program, the only program of its kind in the area. For people who are sleeping on Milwaukee's streets, it offers not just a hot meal but also a brief respite from the elements.

- Supports Saturday Lunch Program and Dinner to Go Project: one of the few meals served on Saturday.
- Funds the distribution of toiletries, bottled water, socks, outerwear, blankets, sleeping bags and clothing.

WHAT WE DO:

United Way believes in making our four-county community stronger. By working together on critical issues, we can help ensure everyone has a safe place to live, work and play.

We collaborate with individuals and organizations to tackle our community's most pressing issues, like health, education and financial stability. We support programs that improve childhood literacy, provide emergency food, help older adults stay active, promote equity and help provide housing.

United Way connects people of all ages and abilities to opportunities to give back to their community through charities and volunteering opportunities.

WHERE YOUR MONEY GOES:

Donations to the Community Fund help United Way find innovative solutions to these issues and call everyone in our four-county region to action. At United Way, we know that our community's issues are broad and vast; they're an enormous challenge for one single nonprofit to address. We also know many of these issues are interrelated - issues like health concerns, educational roadblocks and financial struggles.
